Summary

I'm a bilingual content marketer with more than five years of experience building search-driven content for US and Latin American audiences. I plan the calendar, write the pieces, manage the freelancers and check the numbers afterward. My work has helped a site earn about €40K a month, and my cybersecurity content is now cited in Google AI Overviews and ChatGPT. I like taking a hard topic, such as regulation, risk or security, and making it clear enough for a busy reader to act on.

Experience

Cybersecurity Content Consultant (Contract), Strike Graph | 11/2025 - 10/2026 | Remote

- Wrote buyer's guides, vendor evaluation frameworks and ROI worksheets on third-party risk management for finance and executive readers.
- Produced CMMC 2.0 compliance content for defense contractors, turning dense regulation into pages people can actually use.
- Worked with the product and compliance teams so every asset stayed accurate and matched the platform.

Bilingual Cybersecurity Content Specialist, Prey | 03/2022 - 03/2026 | Remote

- Led a content campaign that established Prey as a reliable, expert source on cybersecurity in the Chilean market. The campaign helped Prey earn membership in the Alianza Chilena de Ciberseguridad (ACC).
- Wrote Chilean cybersecurity-law content that is cited in Google AI Overviews and ChatGPT for related queries.
- Saw one ChatGPT tool comparison cite my articles as sources. A reader clicked through to Prey's site and bought, a sale that began with AI search.

- Ran weekly SEO research in Ahrefs, then published and edited English and Spanish content for the US and LATAM markets.
- Published bilingual cybersecurity ebooks built on paid research data, and designed infographics (portfolio available).
- Wrote email campaigns for subscribers announcing new app features, along with guides on how to use them.
- Oversaw publishing and planning across Webflow, Notion and Miro.

Senior Content Manager (Contract), Better Collective | 03/2024 - 01/2025 | Worldwide

- Led a team of 5 freelancers (3 writers, a technical SEO manager and a site manager), setting priorities and giving briefs and feedback to grow revenue.
- Built and ran content plans for Chile, Colombia, Mexico, Peru and Argentina using Ahrefs, Mangools and Surfer SEO.
- Managed content across several CMS platforms, including ARC, WordPress and custom systems.

SEO Content Specialist (Contract), Game Lounge | 03/2022 - 03/2024 | Remote

- Wrote, edited and supervised content for several Latin American markets, including onlinecasino.cl, a site that generated about €40K a month.
- Found content opportunities through SEO data and industry research across news, social media and press.
- Wrote emails for players about new game events, game guides and product features.
- Handled the highest-revenue LATAM sites (Chile, Colombia, Peru).

Skills

- **Content marketing:** content strategy, editorial calendars, ebooks and guides, storytelling, brand voice, freelancer management
- **SEO:** keyword research, on-page optimization, content refreshes, competitor and gap research, writing for AI search (AEO/GEO)
- **Tools:** Google Search Console, GA4, Ahrefs, Mangools, Surfer SEO
- **Publishing:** WordPress, Webflow, ARC, Notion, Miro
- **Domains:** cybersecurity, compliance, B2B software, iGaming and affiliate marketing

Technical Projects

- **Trip·3·o (React, Vite, PIXI.js, Web Audio API):** an arcade color-mixing puzzle game of about 18,600 lines, deployed as a PWA. I moved its renderer from CSS to WebGL with a WebGL2, WebGL1 and Canvas 2D fallback, and tuned it for mid-range phones by removing per-frame allocations and adding cell-level diff rendering and a texture cache.
- **Et Al (React, Supabase, Vercel):** a shared household budgeting app with USD and bolívar support using the BCV exchange rate, several split modes, receipt OCR and PWA installation.

Earlier Experience and Recognition

- iGaming Copywriter, Phoenix Digital (from 2021): named an Outstanding Talent and interviewed for a multi-platform feature.

Projects and Volunteer Work

- **Cybersecurity awareness training, Venezuela (07/2022 - present, volunteer):** taught 200+ people in Barcelona, Caracas, Porlamar and Puerto Ordaz how to spot scams and phishing and secure their Wi-Fi.
- **Analog Photography Journal (03/2023 - present):** a photographic record of Venezuela, its people and its places.

Education and Certifications

- Google Cybersecurity Certificate (04/2021)
- Google Skillshop and Digital Garage: Google Analytics for Beginners; Fundamentals of Digital Marketing
- Harvard CS50's Introduction to Programming with Python (CS50P)
- EF SET English Certificate: C2 (score 89)
- Civil Engineering, about 90% completed (community service project completed)

Languages

English (native or bilingual) | Spanish (native or bilingual)
